Itemized USD pricing; no tax, discounts or currency conversion calculated.

Deliverable / price line	Quantity	Unit price $	Line total $

Total: $_____ Proposed deposit: _____% = $_____

Remaining balance: $_____

Line = whole quantity x unit price. Balance = total minus rounded deposit.

Payment due dates and change approval terms to confirm

A draft is not evidence of client acceptance or payment.

Confirm the agreement and applicable requirements for the actual work.

The browser worksheet calculates prices and keeps editable JSON backups.

Example: $300 + (6 x $150) + $200 = $1,400; 30% = $420; balance = $980.
